NY MAIN 182520 v1

Application No. 09/068,528  
Attorney Docket No. 766.20

VERSION WITH MARKINGS TO SHOW CHANGES MADE TO CLAIMS

72. (Amended) The process according to claim 1, wherein the at least one strain of microorganism having genes responsible for production of a sugar nucleotide comprises a recombinant microorganism having at least one gene responsible for production of a sugar nucleotide, said gene being derived from a different microorganism, [which is responsible for production of a sugar nucleotide] or being derived from said strain of microorganism but being harbored in a plasmid.
